Contains research articles on the development and analysis of numerical methods. Topics include the rigorous study of convergence of algorithms, their accuracy, their stability, and their computational complexity. Also included are results in mathematical analysis that contribute to algorithm analysis, and computational results that demonstrate algorithm behavior and applicability.

SIUNUM is published article by article at http://epubs.siam.org/sinum

Publication information
ISSN: 0036-1429 (print) /1095-7170 (electronic)
Frequency: electronically published continuously
Year established: 1964
Available formats: electronic and print
2015 volume number: 53

2015 Rates
Electronic only $815 / Print add-on $135

All volumes of SIAM Journal on Numerical Analysis up to five years from the present are available through JSTOR. These volumes can be accessed through participating libraries from the JSTOR website: www.jstor.org/journals/00361429.html.
