

SIAM Journal on Computing

Applying Mathematical Principles to
Computing Applications

Editor-in-Chief

Robert Krauthgamer

Weizmann Institute of Science

Provides coverage of the most significant work taking place in the mathematical and formal aspects of computer science and nonnumerical computing. Topics include but are not limited to analysis and design of algorithms, algorithmic game theory, data structures, computational complexity, computational algebra, computational aspects of combinatorics and graph theory, computational biology, computational geometry, computational robotics, the mathematical aspects of programming languages, artificial intelligence, computational learning, databases, information retrieval, cryptography, networks, distributed computing, parallel algorithms, and computer architecture.

epubs.siam.org/sicomp

ISSN: 0097-5397 (print) / 1095-7111 (electronic)

Frequency: electronically published continuously

Year established: 1972

Formats: electronic and print

2024 volume number: 53

2024 rates: electronic only \$1,142 / print add-on \$152
